IV. Group Capital Adequacy Assessment Method

- Shinhan Financial Group has been calculating the BIS Equity Capital Ratio by applying the Basel 3 Capital Regulation Standard from the end of 2013.
- The BIS Equity Capital Ratio is an index that evaluates whether a financial Institution's available capital is sufficient to cover the risk-weighted assets it is exposed to.
- Shinhan Financial Group has been calculating Risk-Weighted Assets by introducing the credit risk section of the final draft of Basel 3 from the end of September, 2020. BIS ratio for 3Q2023 was 15.65% and we maintain sufficient capital adequacy by exceeding the minimum equity ratio of 11.50%.
- Shinhan Financial Group has maintained the BIS Ratio above the appropriate level, considering the capital conservation buffer introduced in 2016, the additional capital of systemically important banks, and the counter-cyclical buffer capital. For this purpose, it is monitored every quarter on a reporting system.
